

* Please go inside for about 30 minutes when you see the truck spraying. Our drivers are instructed to cut off the sprayer if people are standing near the road.

* Please note that spraying may be cancelled or changed all or in part without notice.

* For more information consult the NHC Vector Control website.

*Please remember to check for standing water in your yards and dump water from all man-made containers. Toss, recycle, or store containers inside so that they can never hold water. Mosquitoes only need 1/8 inch of water to complete their life cycle.

New Hanover County Mosquito Spray Schedule 7-25-17 through 7-31-17

There will be no county-wide spraying this week. Surveillance shows that mosquito populations are still low.

Citizen concerns will be handled on a case by case basis.

Please click here to report a Vector Control concern:
