

Mosquito spray is approved for public health use, but as a precaution you can go inside for 30 minutes when you see the truck.

Spray schedules are based on mosquito trap counts, weather, and other data, and may be cancelled or changed. Spraying takes place in the evening and is weather permitting.

Remember to dump all standing water in your yard. Mosquitos only need one tablespoon of water to breed.

Find mosquito spray information, sign up for spray notifications or report mosquito concerns at Health.NHCgov.com

Barring a weather anomaly, mosquito spraying has been suspended for the rest of the year. See you folks next season.
